

AMALGAM RECYCLING SYSTEMS

1.25, 2.5, AND 5 GALLON SYSTEMS

**THE EASIEST AND MOST AFFORDABLE
WAY TO MANAGE ALMALGAM DISPOSAL**

IMPORTANT! Amalgam waste CANNOT be discarded in regular trash or in bio-hazard containers with other red bag and sharps waste. Anything that contains amalgam must be stored in a specifically-designated container for proper recycling.

Stay compliant with ADA Best Management Practices by using Envirolaska's 1.5, 2.5 or 5 gallon PureWay Amalgam Recycling Systems to properly dispose of your amalgam waste!

Unlike other amalgam disposal systems on the market, all systems come with a pre-paid USPS return shipping label, live email tracking updates, and automatic electronic recycling certificate. Purchase systems online as needed at envirolaska.com.

BENEFITS

- Available in three convenient sizes: 1.25 gallon, 2.5 gallon, or 5 gallon
- Average cost savings of 20-30% over competing systems
- Meets ADA standard and complies with ANSI 109 requirements
- Approved to properly store and recycle scrap amalgam, chairside traps, disposable amalgam capsules, and extracted teeth containing amalgam fillings
- Includes pre-paid USPS return shipping label — no need to call and request a label
- Live email tracking notifications and electronic recycling certificates sent automatically
